

## AsiaWorld-Expo Management Limited Environmental Policy Statement

AsiaWorld-Expo Management Limited is fully committed to the development and implementation of the Environmental Management System in accordance with the requirements and spirit of the Bouygues Bâtiment International Environmental Policy and ISO 14001:2004, standard towards the operations and management of AsiaWorld-Expo.

The company is devoted to the green policy in our business operations by striving for the provision of facilities and services in an environmental-friendly manner within the limits of our control.

For the purpose of achieving ISO 14001 Certification, our scope statement is:

### **The Operations and Management of AsiaWorld-Expo in a green and environmental-friendly manner**

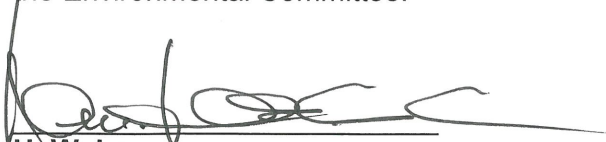

exclusive of the selection of materials, control of energy consumption and management & disposal of waste that is directly attributable to the event organisers.

It is our Policy to:

- provide effective and reliable services to meet the expectations and satisfy the needs of our stakeholders in compliance, with all relevant statutory and regulatory requirements in relation to environment;
- undertake all necessary tasks and actions to meet the above objectives in the highest efficient and effective manner, if possible, in terms of time, resources, and cost;
- look for all practical ways to minimise pollution, reduce waste and consumption of resources, as well as to encourage recovery and recycling wherever feasible;
- continually improve the environmental performance of our services;
- monitor the effectiveness of the Environmental Management System by a scheduled series of inspections, internal audits and management reviews; and
- provide training, as appropriate, for staff with job duties related to any environmental issues.

Compliance with the Environmental Management System is mandatory for all staff of AWEM.

All staff are also welcomed and encouraged to contribute to the continual improvement of our Environmental Management System, and to put forward their observations and/or suggestions to the Environmental Committee.
